

EPA Summer Internship Opportunities

Deadline to Apply: March 22nd

To apply go to: www.usajobs.gov

These vacancies are located in the EPA Region 7 Office in Kansas City, Kansas, and appointments may be made in any Regional Division or Program Office. Selectees will be placed into the Summer Student Temporary Employment Program (STEP). Appointments may begin at any time after April 15, 2011 and will not exceed September 16, 2011, except as arranged on a case by case basis. Appointments may also be terminated earlier or later. As STEP employees, students will actively support and promote the goals of the organization in a positive, cooperative manner that leads to increased productivity and improved customer service. Students will demonstrate initiative in participating and supporting team efforts within the Region. A high degree of self-motivation, creativity, originality and work quality is desired of candidates. The attributes of a good candidate also consist of enthusiasm for the mission of the EPA and the environment, communication skills, leadership capability and personal and professional integrity.
