

Schlumberger

Schlumberger, Lawrence Technology Center, located in Lawrence, Kansas, is the leader in the design and manufacture of highly engineered power cable products for the petroleum production industry. We currently have an opportunity for a Health, Safety & Environmental (HSE) Specialist. The position has a high emphasis on Environmental.

Qualified applicants must have:

- Bachelor Degree in Environmental Science or Occupational Health & Safety with 0-3 years experience
- Knowledge of OSHA and EPA regulations
- Good communication skills, decision making & problem solving skills
- Computer skills - Microsoft Office Suite.

Responsibilities include:

- Supporting local management in establishing and continuously improving the HSE culture within the Center
- Identifying and advising management on opportunities for reduction in the life cycle environmental impacts of products and services developed or manufactured at the Center
- Ensuring procedures for compliance with environmental regulations and internal standards are current
- Liaising with industry organizations, third party subcontractors, and agencies regarding HSE issues
- Assisting with the preparation, maintenance, implementation, and training of site-specific plans, programs and procedures (including but not limited to waste management plans and programs)
- Developing and maintaining a high level of awareness among all personnel at the Center through communication, training, and active involvement
- Assisting line management in implementing the HSE Management System, monitoring HSE objectives, assessing local risks, generating local HSE procedures, work instruction, and checklists, etc

We offer a competitive compensation package as well as generous benefits that begin on hire date. Qualified applicants should submit their application and current resume in person, by mail, or fax. Our application can be found at: http://www.slb.com/~media/Files/careers/employment_application.ashx
